**Notes**

**Step 1: Select Recovery Series Model and Package Based on Usable Storage Capacity (TB) and software needs**

**Step 2 Select the Support Term for your appliance model for Platinum Support, 1, 3, 4 or 5 years**

*\* Usable Capacity is the appliance's raw backup capacity after RAID. Suggested backup sizes are estimates based on data measured across thousands of customers. The estimates assume 14-30 days of retention on the local appliance protecting a typical composition of file and VM data.*
